Global Management Trainee Summer Intern Program Overview

At AB InBev, we believe in investing in our future leaders today. The Global Management Trainee summer intern program is an intensive 2-month internship program which attracts the brightest, most driven students and nurtures their talent by giving relevant experiences right from the start. Our goal is to find people who can take on challenging positions early on in their career and who have the potential to be our GMTs and further become our future leaders. We achieve this by putting the summer interns into business projects, where they will gain insight into the real business.

Interview Process
